

## THE MILES PRODUCTS BY LEASYS LAUNCHED IN EUROPE

Rome, 15 June 2020 – After the success achieved in Italy with **Leasys Miles** and its version for Jeep vehicles, **Jeep Miles by Leasys**, Leasys, FCA Bank’s integrated mobility-service company, launches its “Pay per Use” offer also in Europe.

In this way, Leasys is addressing the requirements of customers who drive in cities, with a low annual kilometrage or infrequently, and want to enjoy driving without the hassle of ownership.

Pay-per-use rentals last 48 months, generally with no down-payment and an affordable monthly payment, in addition to a variable fee calculated on the basis of the actual kilometres travelled. The T-Box Mopar Connect installed on-board the vehicle clocks the actual kilometres travelled by the customer. There is no limit to how far you can drive for an authentic “**Pay per use**” experience. In some cases, the first 1,000 kilometres are already included in the rental payment.

Moreover, assistance and insurance coverage are available in addition to basic rental, for a really worry-free driving experience.

The countries where the product is already available are France, Spain, UK, Belgium, and will be launched in Germany and the Netherlands by the end of June.

The extension of Italian products to the foreign markets in which Leasys operates is part of the broader internationalization plan that the company has undertaken since 2017, expanding operations to 13 countries by the end of 2021, from the current 8.
