After Milano Malpensa and Milano Linate, electrification will reach the Leasys Mobility Stores located in other important provincial capitals in Italy. As the process unfolds throughout Italy, **Leasys** will undertake also the progressive **electrification of its fleet** (with 50% of it made up of either electric or hybrid vehicles by 2021), with the addition of the new FCA models, including the electric New 500 and the Jeep Renegade and Compass 4xe plug-in hybrid models.

In connection with the arrival of the new vehicles, Leasys is developing **new mobility and rental services**, which include the alternate availability of electric, hybrid and traditional-fuel vehicles, thus providing all the benefits of **sustainability** and **freedom of movement**, thanks to the possibility to access restricted traffic zones in large cities.
