Turin, 8th June 2021

Leasys CarCloud, the first car subscription in Italy, is a family of growing and increasingly sustainable products, thanks to the addition of a hassle-free and zero-emission driving experience. Leasys, a Stellantis brand and a subsidiary of FCA Bank, is launching two new plans, CarCloud Peugeot e-208, where users can subscribe to the Lion's electric city car, and CarCloud DS e-Tense, which enables users to choose between the 100% electric DS 3 Crossback E-Tense crossover and the DS 7 Crossback E-Tense Plug-in Hybrid SUV.

CarCloud Peugeot e-208 and DS e-Tense provide 12 different subscription options. The new electric plans are designed for an increasingly sustainable and flexible mobility, to be made available to private customers and self-employed professionals, who will be able to book the chosen car and pick it up after 48 hours at one of the participating Leasys Mobility Stores.

To subscribe to the CarCloud plan dedicated to the new Peugeot e-208 electric city car, users can purchase a one-time subscription voucher on Amazon, at a cost of €199.00, and eventually convert it on the website carcloud.leasys.com. The car can then be rented for €399 a month, for up to 12 months, without penalty in case of cancellation.

The offer dedicated to the DS e-Tense range allows customers to choose (and change every time they want) between the new DS 3 Crossback E-Tense compact electric urban SUV and the powerful Plug-in Hybrid DS 7 Crossback E-Tense, the 4x4 SUV that can be driven for up to 60 kilometres in fully electric mode. Again, the activation pass can be purchased from Amazon for €249.00 while the use of the cars costs €799.00 per month.

Both packages include the possibility of charging the cars through the domestic network, thanks to the cable provided, or at no cost at all equipped Leasys Mobility Stores located throughout Italy, with a card supplied to customers that can be used also to pay at public charging stations.

The subscription includes all the services needed to drive with complete peace of mind (including third-party motor liability, Kasko and theft insurance, routine and non-routine maintenance, as well as all the additional services).

The CarCloud and in particular the new subscriptions dedicated to electric and plug-in hybrid cars represent the most affordable, flexible and hassle-free solution for accessing the new world of electric cars.

With the arrival of these two new electrified packages, Leasys also introduces the new e-CarCloud brand which, starting today, will provide all electrified CarCloud solutions.

Leasys

Leasys, a Stellantis Brand and a subsidiary of FCA Bank, a 50:50 joint venture between Stellantis and Crédit Agricole, was established in September 2001. Leasys offers a complete and innovative system of mobility services to individuals, professionals and businesses of all sizes: from short, medium and long-term rentals to peer-to-peer car sharing via the

U Go platform and I-Link. At the end of 2019, it launched the first car subscription service in Italy with CarCloud. With the Clickar brand, Leasys is also one of the leading Italian online and offline retailers of pre-owned company cars to individuals, professionals and companies. Headquartered in Italy, Leasys began a process of internationalization in 2017 by opening multiple offices throughout Europe: today the company operates in Spain, France, the United Kingdom, Germany, Belgium, the Netherlands, Portugal, Denmark and Poland, managing a fleet that will have over 400,000 vehicles by the end of 2021. In June 2019, the company launched the Leasys Mobility Stores, physical outlets with a grassroots presence across Italy. The Stores, which provide customers access to all the mobility services provided by Leasys, are now available in France as well and will open soon also in the other European countries where the company is operational. With the launch of the first totally electrified Mobility Store in Torino Caselle airport, Leasys is on track to become a key operator also for sustainable mobility. In fact, thanks to the installation of over 1,200 charging stations in all the stores, at the end of 2020, Leasys had Italy's largest private electrified network. In 2021, the electrification project will continue also in the European countries in which Leasys operates. For more information: www.leasys.com
