

LEASYS LAUNCHES NEW ON DEMAND INTEGRATED MOBILITY PLAN

- Every new long-term rental contract signed with the Noleggio Chiaro product will include, in the Leasys CarBox fee, the on demand car subscription.
- With CarBox customers can rent a second car, either fractionally or continuously, for a total of 10 days in the year after activation.
- CarBox is always available as an additional service on all Leasys rental products.

Rome, 4 October 2021

Leasys is continuing its drive towards increasingly integrated, flexible and affordable mobility. The company, a Stellantis brand and a subsidiary of FCA Bank, is launching a **new plan** that will allow all customers who sign a Noleggio Chiaro long-term rental contract to take advantage of **Leasys CarBox**, the first on-demand car subscription service

With this service customers will have a second car available, to be used **sporadically or continuously**, for a total of **10 days** within a year of activation. The model, which can be selected from 15 of the various segments available, will be ready for use at any time, booking it directly through the CarBox digital platform.

This innovative package, which combines long-term and short-term rentals, will be included for one month from launch in all **contracts under Noleggio Chiaro**, a leading product in the Leasys portfolio that allows customers to take advantage of the right of first refusal in relation to the purchase of the car at the end of the rental period.

CarBox, available as an **additional service on all long-term rental solutions**, includes all the assistance services needed to offer a complete and worry-free driving experience: **unlimited kilometres, third-party liability (RC) insurance, damage and theft coverage, road and airport charges.**

Activation of the on-demand mobility service is very simple. Once they have signed the long-term rental contract, customers will receive a promo code **with which to register online and activate the Leasys CarBox service.** Then, in the year after that, customers can choose the most suitable car for their needs from those available, select

the start and end dates of the rental and the Leasys Mobility Store where they can pick up the vehicle, all in completely digital mode.

Leasys

Leasys, a Stellantis Brand and a subsidiary of FCA Bank, a 50:50 joint venture between Stellantis and Crédit Agricole, was established in September 2001. Leasys provides a complete and innovative system of mobility services to individuals, professionals and businesses of all sizes: from short-, medium- and long-term rentals to peer-to-peer car sharing via the U Go platform and I-Link. At the end of 2019, it launched the first car subscription service in Italy with CarCloud. With the Clickar brand, Leasys is also one of the leading Italian online and offline retailers of pre-owned company cars to individuals, professionals and companies. Headquartered in Italy, Leasys began a process of internationalization in 2017 by opening multiple offices throughout Europe: today the company operates in Spain, France, the United Kingdom, Germany, Belgium, the Netherlands, Portugal, Denmark, Greece, Austria, and Poland, managing a fleet that will have over 400,000 vehicles by the end of 2021. In June 2019, the company launched the Leasys Mobility Stores, physical outlets with a grassroots presence across Italy. The Stores, which provide customers access to all the mobility services provided by Leasys, are now available in France and Spain as well and will open soon also in the other European countries where the company is operational. With the launch of the first totally electrified Mobility Store in Torino Caselle airport in 2020, followed by many others, Leasys has become a key operator also for sustainable mobility. In fact, thanks to the over 1,000 charging stations installed in all the stores, Leasys has Italy's largest private electrified network. In 2021, the electrification project will continue also in the European countries in which Leasys operates.
