

Leasys Pro: the LTR formula for commercial vehicles arrives in Belgium, Portugal and Spain

- Building on its leadership in the sector in Italy, Leasys is now extending the formula to another 3 European markets, in line with a trend that sees long-term LCV rentals accounting for as much as a third of the sector's market, according to the report compiled by Dataforce.
- Leasys Pro combines the advantages of LTR with the convenience and versatility of the commercial vehicles under the Stellantis brands, which can be fitted out to suit your business needs and include all the services you need to drive with peace of mind.

Rome, 14 March 2023

Mobility with Leasys is increasingly catering for the needs of working people. Building on its success in Italy, the company, a Stellantis brand, is extending to Belgium, Portugal and Spain **Leasys Pro**, the specific **long-term rental** formula for large companies, small and medium-sized businesses and the self-employed. The formula allows them to drive a **commercial vehicle, with the possibility of customising its set-up**, to drive their business without the worries of vehicle management.

An expansion strategy in line with a trend in which **LCVs for long-term rental account for no less than one third of the sector's market**, according to the report compiled by Dataforce¹ on the basis of data provided by the Ministry of Infrastructure and Sustainable Mobility and ACI (Italian Automobile Club)/PRA (Public Vehicle Register). In the light commercial vehicle (LCV) sector, in 2022, Leasys confirmed its **leadership position in Italy**, setting itself with a market share of close to 29%, driven by a 31.32% increase in new vehicle registrations.

With Leasys Pro, Leasys combines the advantages of LTR with the convenience of the many commercial vehicles under the Stellantis brands. You can choose the commercial vehicle that best suits your needs and, if your business needs require it, you can also choose the set-up. Three pre-configured set-ups are available, dedicated to three specific types of professional: plumber, transporter and electrician. Additionally, each set-up can be further enhanced with more accessories or fully customised thanks also to the support of specialised consultants

¹ [Dataforce Leasing Focus: 2022](#). Dataforce report based on a source from the Ministry of Infrastructure & Sustainable Mobility and ACI/PRA.

Now **available in 4 markets**, the formula includes **all the essential services** for driving with complete peace of mind: third-party liability, theft, fire and damage repaircover, roadside assistance, ordinary and extraordinary maintenance, tyre service, courtesy car and the I-Care infomobility service for remote vehicle monitoring.

Leasys

Established in September 2001, Leasys is now a 50:50 joint venture between Stellantis and Crédit Agricole Consumer Finance. The company offers medium- to long-term leasing solutions and fleet management systems, to guarantee efficient, rational, safe and sustainable mobility.

Leasys is pioneering a new idea of fluid, integrated and global mobility, designed for individuals, professionals and companies of all sizes, ranging from leasing and electric mobility to online and offline sales of used company vehicles (via the Clickar brand).

With its headquarters in Italy, Leasys started its international expansion in 2017, which has taken it into nine European countries. It now operates in Austria, Belgium, France, Germany, the Netherlands, Poland, Portugal, the United Kingdom and Spain, managing a fleet of 400,000 vehicles.
