

LEASYS AND FREE2MOVE ESOLUTIONS COME TOGETHER TO ENHANCE THE ELECTRIC MOBILITY OFFERING

- **The collaboration between the two brands gave rise to a project aimed at further enriching Leasys' electric mobility offer**
- **Starting today, the monthly payment for all rented electric and hybrid cars can also include an Wallbox**

Leasys and **Free2Move eSolutions**, specialised in innovative technologies to guide the transition to e-mobility, in order to take another step on the path towards an increasingly mature and efficient electric mobility.

The partnership between the two companies has led to the launch of a charging project that will further enhance Leasys' mobility offering. Starting today, the rental fee for all rented electric and hybrid cars **can also include an Wallbox at an additional cost within the monthly payment.**

All Leasys customers will also have the option to request - at a specific and additional price, not included in the fee - the professional installation that will allow the easyWallbox to operate at up to 7.4 kW.

*"We are proud of this first initiative that brings together Leasys and Free2Move eSolutions, two brands that share a common link with the Stellantis Group and are top players in the mobility space," said **Giacomo Carelli**, CEO of FCA Bank and Chairman of Leasys. "This partnership is a further decisive step in the creation of an increasingly complete range of rental products integrated into a charging ecosystem, to the benefit of both the environment and consumers".*

Roberto Di Stefano, CEO of Free2Move eSolutions, said: *"Combining the winning features of Free2Move eSolutions and Leasys in a partnership does not just mean participating in the spread of electric vehicles by transforming the use of these cars into a common and consolidated habit, but advancing a completely different concept for their use, and that goes for mobility in general. Only in this way will it be possible to contribute effectively to the achievement of the sustainability goals we have set for ourselves".*

Leasys

Created in September 2001, Leasys is a Stellantis brand specializing in long-term rental solutions. Leasys offers a complete and innovative system of mobility services, ranging from long-term rental to car sharing between individuals through the U Go platform and I-Link. With the Clickar brand, it is also one of the main Italian leaders, both online and offline, of second-hand cars for individuals, professionals and companies. Headquartered in Italy, Leasys began an internationalisation process in 2017 with the opening of eleven offices throughout Europe: today the company is present in Germany, Austria, Belgium, Denmark, France, the Netherlands, Poland, Portugal and the United Kingdom, operating a fleet with more than 450,000 vehicles.
