Turin, 4 June 2021

To mark **World Environment Day** on 5 June, **FCA Bank and Leasys** are renewing their support for environmental protection by relaunching the "**Tree on board**" project at an international level. The project is the brainchild of a **partnership with Treadom**, a platform that enables people to plant a tree from a distance and follow its history online.

The initiative will be active **in all European countries where FCA Bank and Leasys** operate: a thin green line that will link Belgium, Denmark, France, Germany, Italy, the Netherlands, Poland, Portugal, the United Kingdom, Spain and many other countries in the name of eco-sustainable mobility and respect for the planet.

Long committed to reducing CO₂ emissions and promoting a revolution in sustainable mobility, the two companies of the FCA Bank Group are offering **exclusive green solutions dedicated to electric and hybrid models**, tailor-made for each market: for every new loan or rental agreement signed, **a tree from the large FCA Bank and Leasys forest will be donated**.

Established in 2020, the forest now has **more than 14,000 trees and over 4 tons of CO₂ absorbed**. Trees adopted by new customers will be looked after by farmers located in various parts of the world, particularly **in Africa and Latin America**, who will tend to them and benefit from their fruit, with the possibility for the customer to know exactly where they are, give them a name and follow their growth.
